Indiana's preliminary unemployment rate is 4.7% for December compared to National rate of 5.7%

Frank O'Bannon, Governor Craig E. Hartzer, Commissioner

Dept. of Workforce Development Indiana Government Center South 10 N. Senate Avenue Indianapolis, IN 45204-2277 Phone: 317/232-7670 FAX: 317/233-4793 TDD: 317/232-7560 http://www.workforce.IN.gov

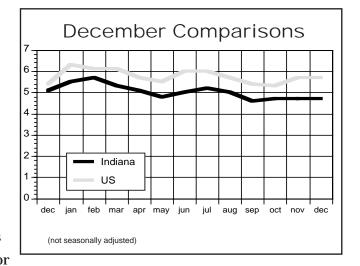

An Equal Opportunity Employer

Indiana's non-seasonally adjusted unemployment rate for December is 4.7 percent, one percentage point below the national rate of 5.7 percent, Craig E. Hartzer, Commissioner for

the Indiana Department of Workforce Development, announced today. The number of Hoosiers employed during December 2002 was 2,971,400.

Indiana's December unemployment rate was lower than Illinois, 6.3 percent; Michigan, 5.6 percent; Ohio, 5.0 percent; and Kentucky at 5.1 percent.

"For the third consecutive month, Indiana's unemployment rate remains at 4.7%. Retail trade was the one sector

that showed an increase during the month of December," commented Hartzer.

The monthly survey of 7,500 Hoosier employers reports payroll employment at 2,926,700 a decrease of 10,900 from one year ago and 8,500 less than last month. Payroll employment is an estimate of non-agricultural jobs in Indiana businesses. It differs from labor force employment which is used in the calculation of the unemployment rate by not including the self-employed and agricultural workers. In addition, payroll employment includes all those who work in Indiana, while the unemployment rate is calculated by those who live in Indiana.

Manufacturing employment totals 615,200 in December, a decrease of 8,000 from last year. Motor vehicle manufacturing accounts for 93,100 jobs, 2,200 more than one year ago. Manufacturing of motor vehicle parts totals 60,000. Industrial machinery manufacturing in December accounts for 61,500 Hoosier jobs, 400 less than November.

Construction employment totals 138,400 a decrease of 6,100 from last month. Of that, heavy construction reports 17,000 jobs, an increase of 1,400 from last year.

Service producing employment totals 2,166,200 in December, 1,200 more than last year. Transportation and public utilities total 141,000, 500 less than November.

Retail trade totals 561,400, 7,000 less than a year ago. Of that, general merchandise stores report employment of 84,900, or 3,600 less than last year. Service sector employment, such as business services, computer and data processing, totals 752,300 in December which is 3,200 more than the previous year.

Indiana's estimated labor force (the number of people 16 years of age and older who are able and available for work) totals 3,119,000 in December

Industry Payroll Employment

Selected Categories	December 2002	Change from Nov. 2002	Change from Dec. 2001
Goods Producing	760,500	-8,200	-12,100
•Construction 138,400		-6,100	-4,400
•Manufacturing	615,200	-2,100	-8,000
Service Producing	2,166,200	-300	+1,200
•Retail Trade	561,400	+3,000	-7,000

2002. An estimated 2,971,400 Hoosiers are employed and 147,600 are unemployed.

Indiana's labor force for December 2001 totaled 3,100,000. Hoosiers employed one year ago is estimated at 2,942,200 and December 2001 unemployed in Indiana totaled 157,800. Indiana's estimated unemployment rate one year ago was 5.1 percent, compared with the national unemployment rate of 5.4 percent in December 2001.*

*Due to an expansion in the Current Population Survey (CPS), mandated by Congress, estimates for June 2001 (revised) and later at both the state and substate levels may not be fully comparable with those of earlier periods. In analyzing data, be aware that over-the-year comparisons, may differ slightly from comparisons that would have been made using data without the sample expansion. More detailed information can be found at http://stats.bls.gov/launews1.htm.
